

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Miriam Ellemor-Collins*

the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that we need to protect sacred sites of our first Nations peoples and we MUST protect our biodiversity and precious gondwana rainforest. For these reasons we must not go through with the Dunoon Dam project.

I like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *GRAZIA O'DONNELL*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*That the council's policies should be supporting
a zero emissions agenda by 2030.*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: PAUL GLENNIE

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- Diversify the water supply
- Work with policy makers to make more enabling environments for things like water reuse, recycling

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Bronwyn Elliott

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- That there are many alternatives to major dams
- That support water efficiency, resilience & regeneration
- eg - encourage more suitable small rural dams & other
- water holding design eg swales across the region to hold
- water in the soil & landscape
- time all potable water to toilets is banned & tank or
- compost toilets replace
- water on the people to think of use

I want to...

...with updates from water Northern Rivers

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

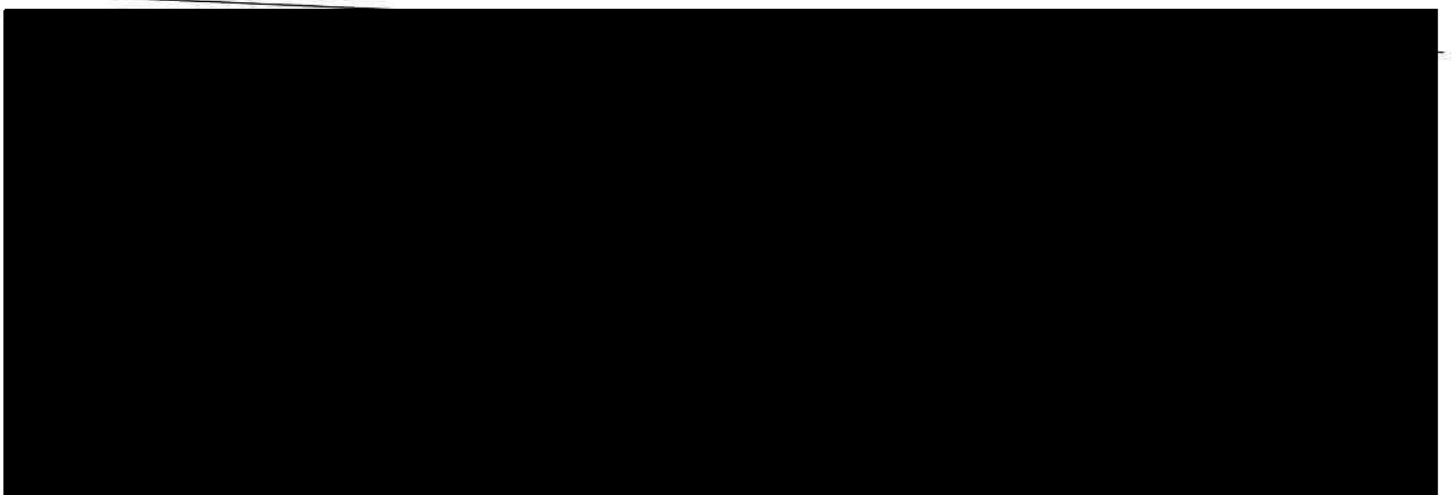

Name: Emily Smith

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jean Renouf

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

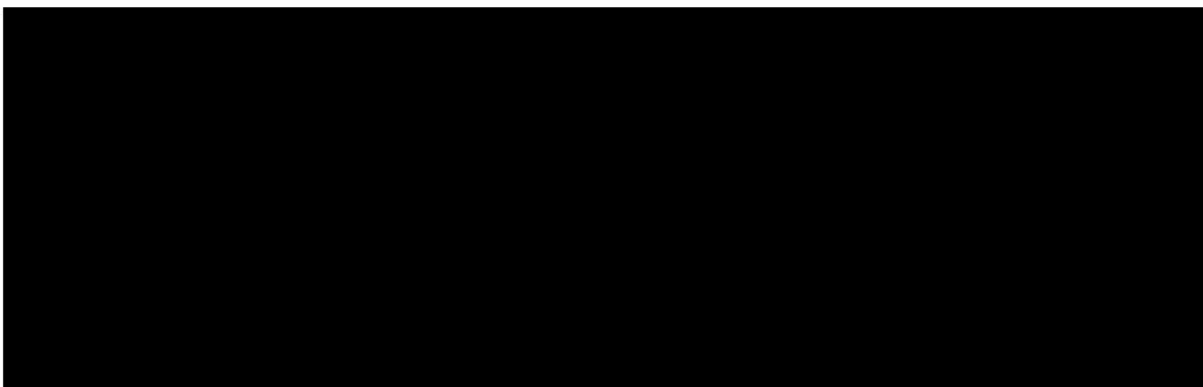

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Considering diversity of water use, supply, distribution
is absolutely essential in ensuring water security
for residents, travellers and our ecosystems

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *KERRIE FERGUSON*

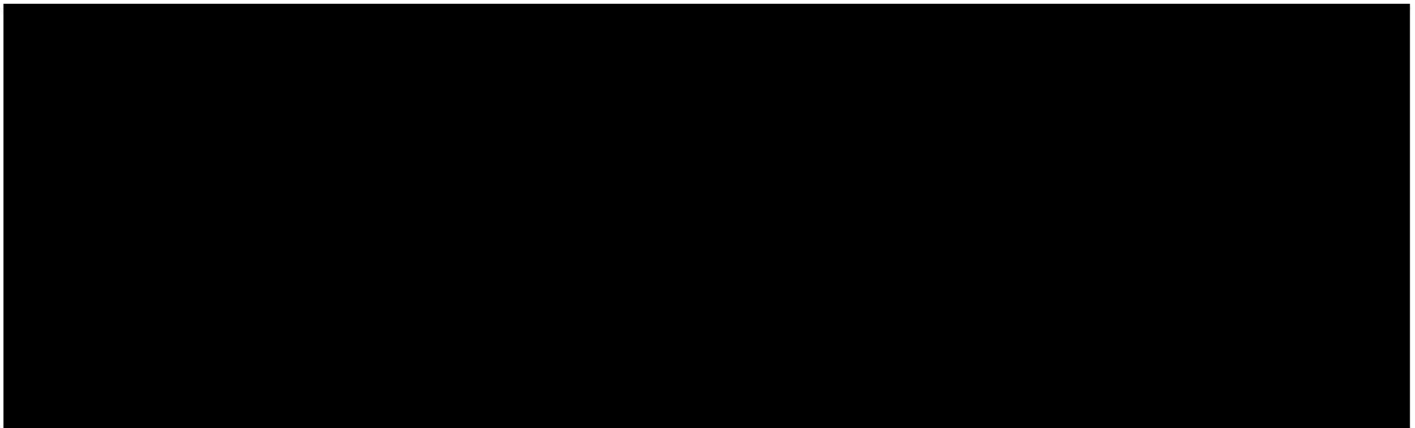

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That any loss of habitat ^{for nature & animals} is not acceptable.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Shane Wales.

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

THAT I SUPPORT WATER CONSERVATION
MEASURES BEFORE INCREASED STORAGE
WHICH AMOUNTS TO WATER THEFT FROM
THE ECOSYSTEM.

NO DUNNOON DAM

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Alandra McLaren

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that I support live trees + wild life
to remain alive in there habitat
& the maintaining the rights of Aboriginal
to keep their ancestral sites
There are other solutions other than
destruction

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Raph Benn*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

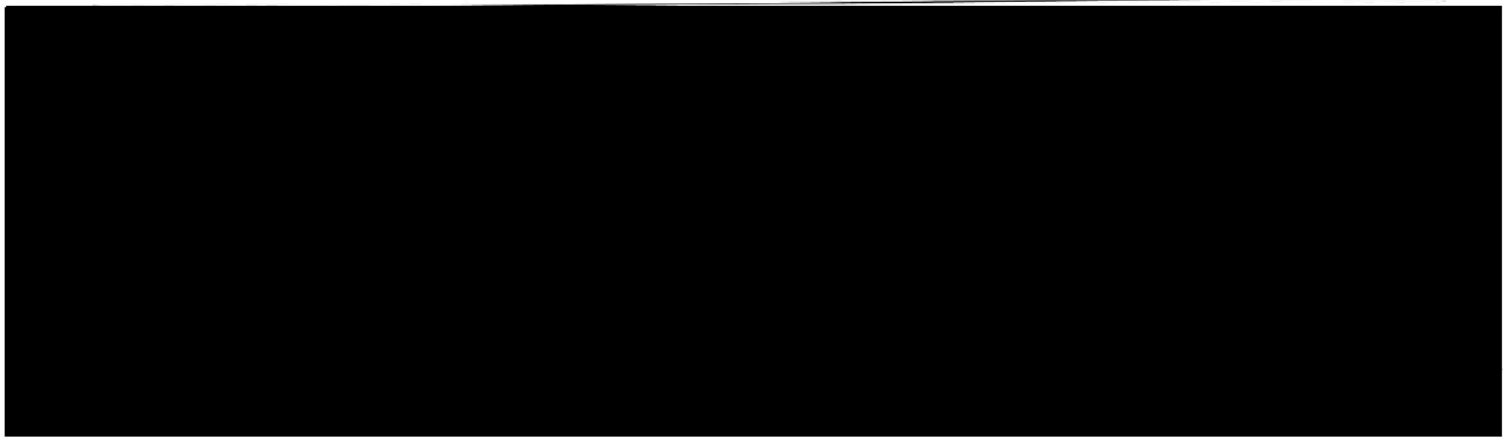

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*Protect pristine waterways. Use
innovative solutions*

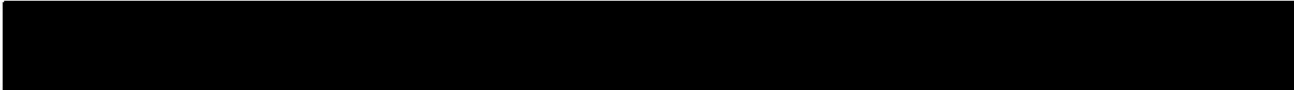

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jessica Willemse

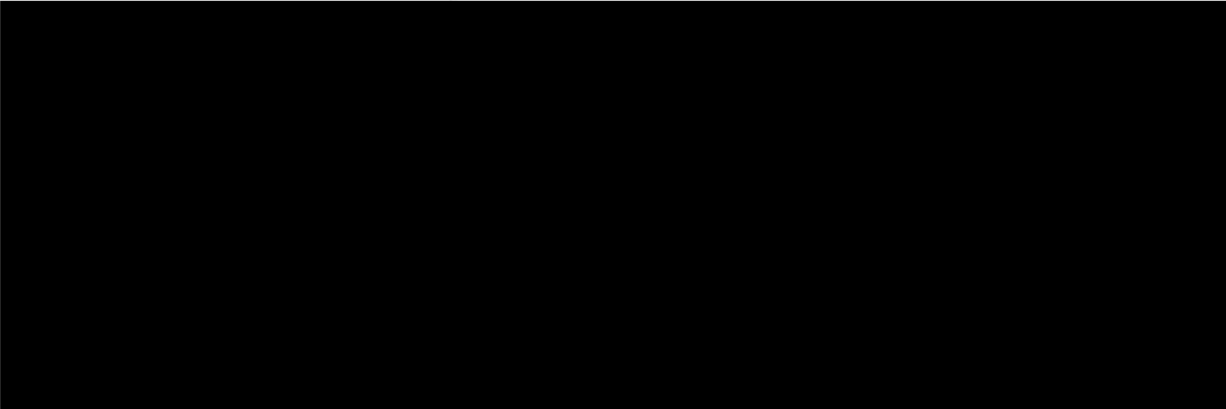

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I am against the destruction of Koala corridors & Aboriginal heritage sites

rs

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Jan Caleb Taaniste*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

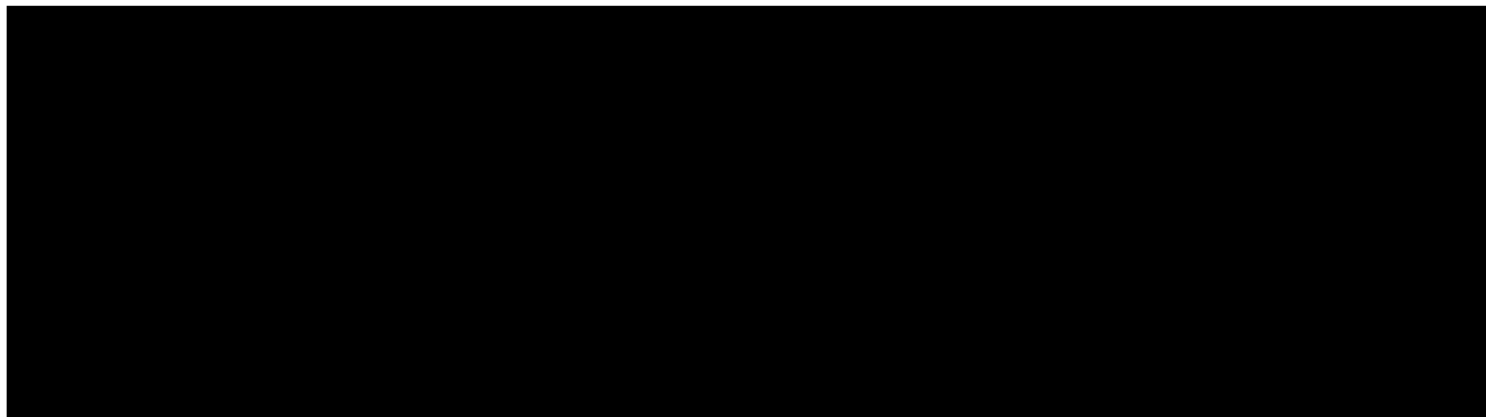

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that biodiversity should be retained, indigenous sites should not be destroyed, and alternative action should be prioritised. We must be patient & resilient.

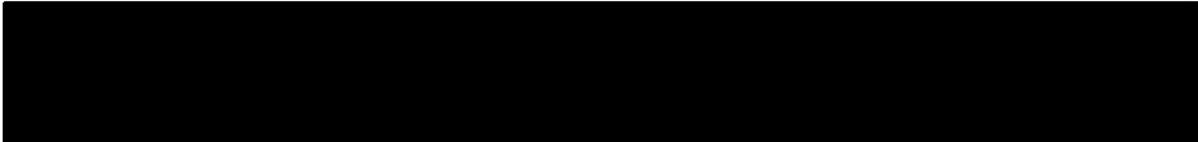

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *JOHAN LEWIS*

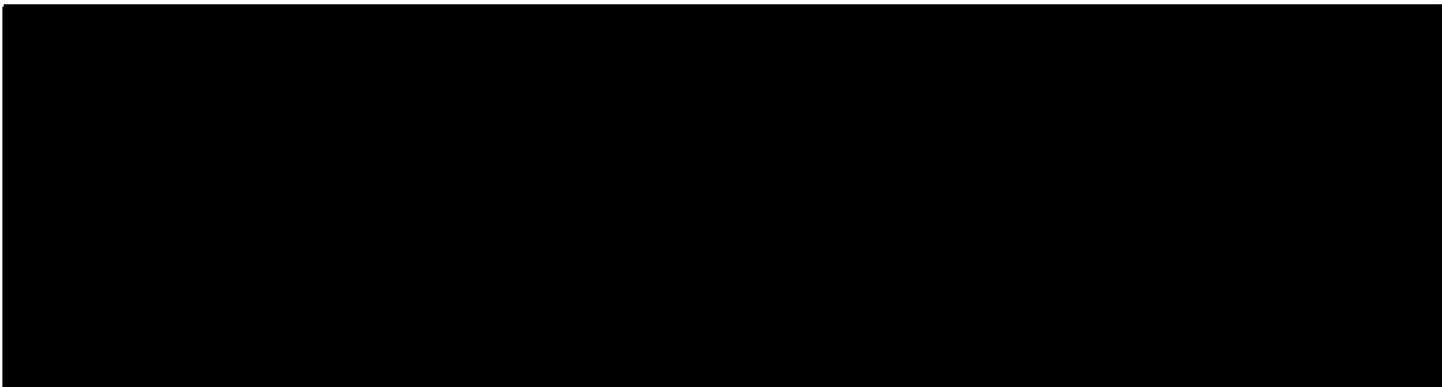

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Maddison Timm

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

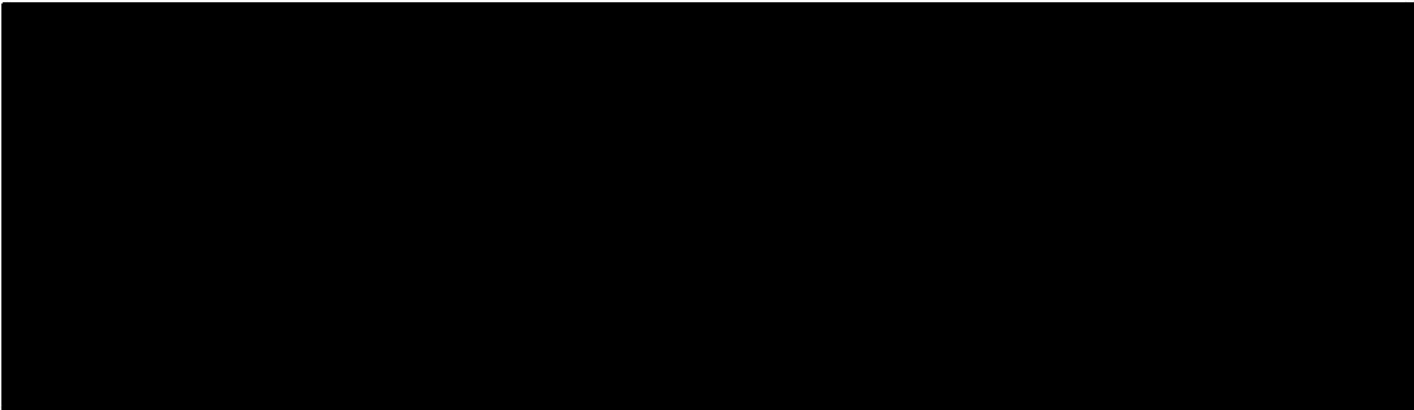

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Our waters and the life within them are
inherently valuable - independent of humans
and essential to our wellbeing as well as the we
are part of the ecosystem.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Charlotte La Mex Adair

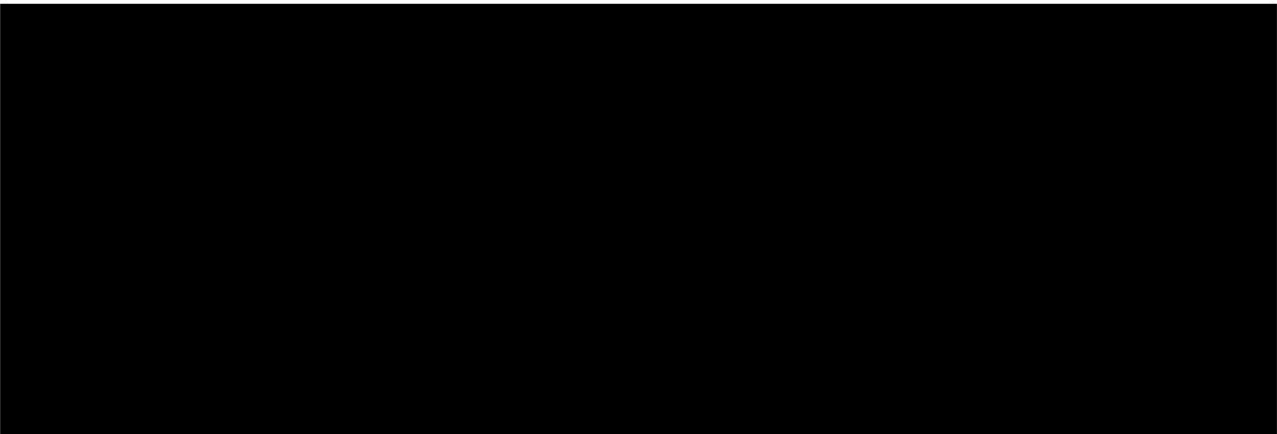

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I don't approve distruption of Aboriginal Hentage sites

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: SARAH ANDERSON

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that we only have one chance to protect
the biodiversity in the area of the indigenous
sites. There are water alternatives such as
desalination that we can build. The
sandstone ridges should not be flooded!

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We need intact hydrological cycles to maintain the integrity and climate-resilience of our ecosystems. Do not disrupt these cycles further !!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Tarn Mount

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I don't believe a dam is necessary because these waters are pristine and wildlife is more precious and necessary than damming

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Liggy Strong*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

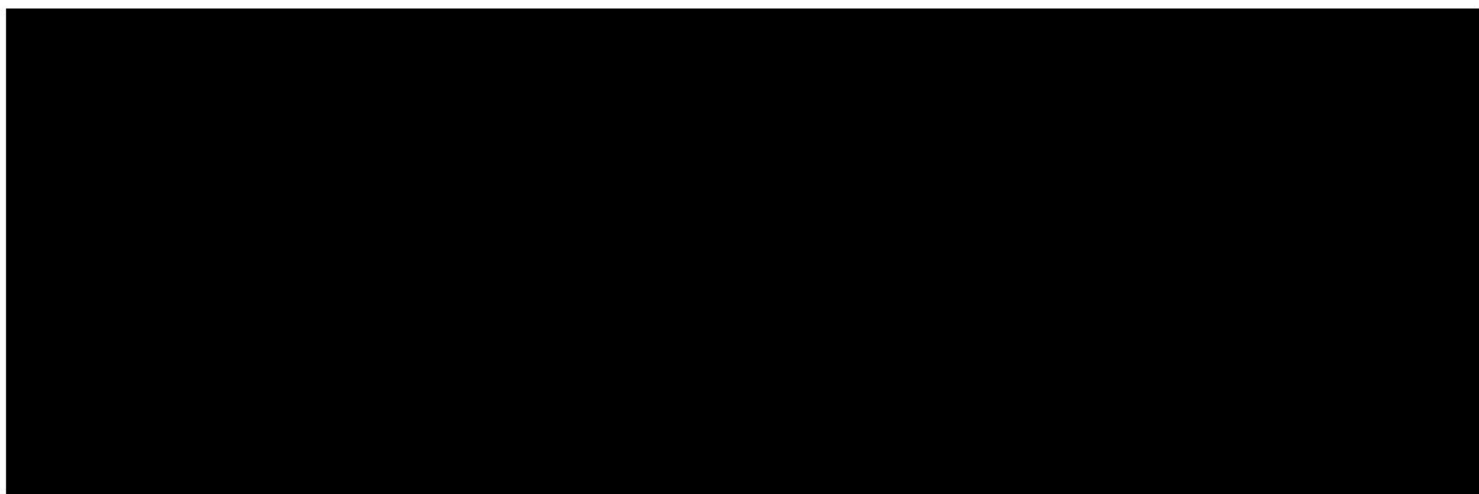

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*I do not approve of a dam being built in the
pristine waters because of wild life*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Taylor Logan

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

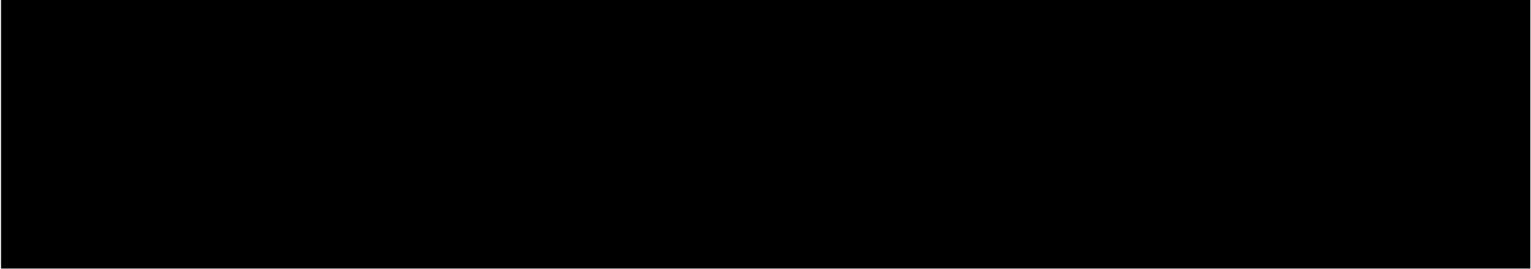

Important habitat to protect and a dam
would ~~be~~ potentially cause more serious flooding
if it was to ~~burst~~ ~~be~~ ~~the~~ overflowed during
extreme rainfall events that are more frequent
due to climate change. All subsidize rainwater
tanks as per solar PV

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Nathan ANDERSON

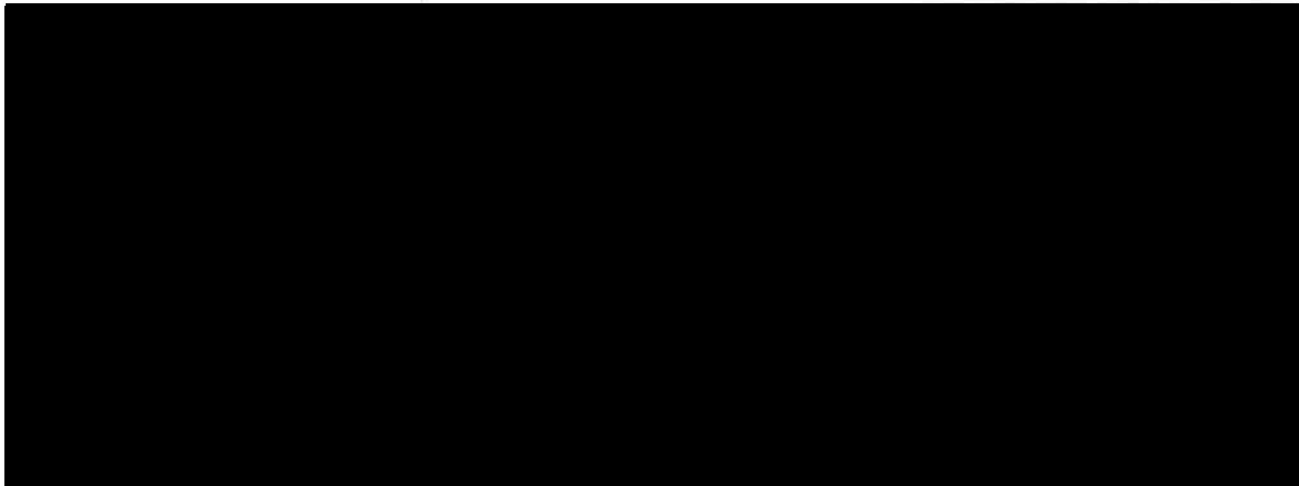

Section 15.4.2, development and implementation of a direct potable reuse scheme
Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
Drought management planning
Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
Sustainably powered temporary desalination plants on the coast
Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

More thorough investigation of
alternatives is required.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Andrew TRANT

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I oppose the Dunoon Dam, it's not needed and is a complete waste of money. We need to be smarter with what we already have. We need to install rainwater tanks and increase education on how to efficiently use water.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *KEN GOLDING*

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

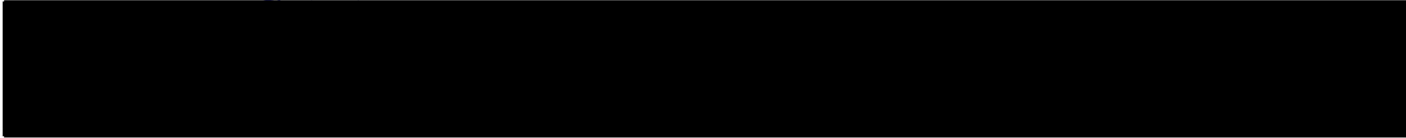

*THIS DAM IS UNNECESSARY. THE COST TO
DIVERSITY & THE RAINFORESTED AREAS
IS TOO GREAT.
THERE ARE DEFINITE ALTERNATIVES*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: JIM STEVANOVSKI

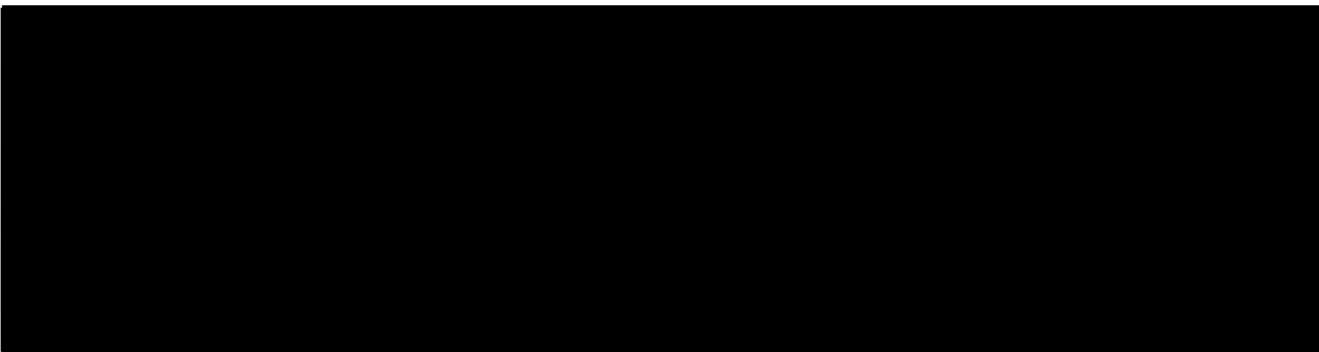

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That Dam proposals are destructive to Natural Habitats that will be destroyed forever.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Georgia Manginas

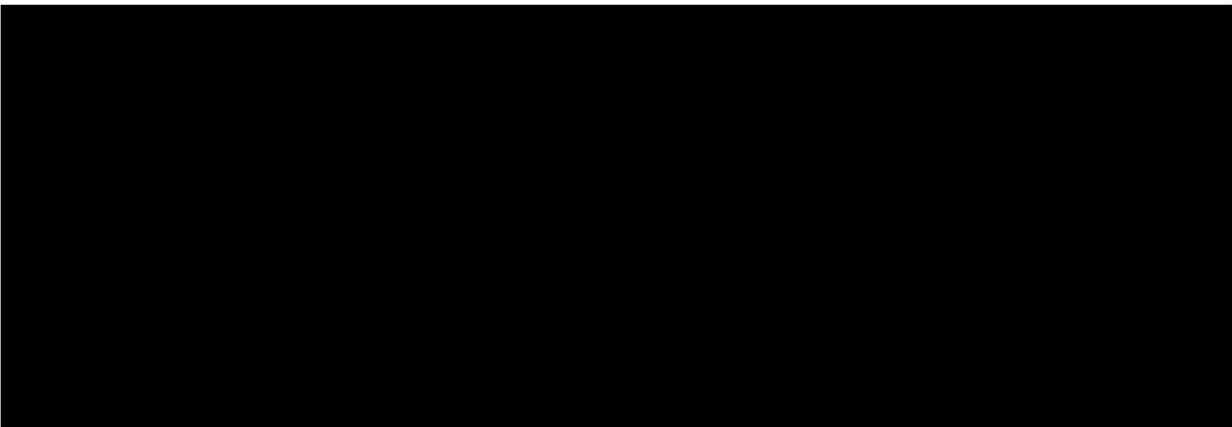

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

The reasons I don't want the dam is it will
destroy rainforest and sacred Aboriginal sites

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Claudia Curry*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*I am a tourist and I visit the
rain forest. Please don't put dam!!*

Save The Planet.

Save The Rain Forest.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Sunne Johannsen*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We need to live with nature not against it if

we want to survive as a human race.

Please stop abusing nature and support the wishes

of the people that you stand for.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Ian Holmes

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This creek here is very special and rare. I lived near it for 10 yrs. It has special birds and animals. I have seen many there.

rn Rivers

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: VIRGINIA REID

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I don't want the dam because
it will destroy rare habitat +
aboriginal sites.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Joanne mcCurry*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

A dam is not the most ecological way to provide water from people, there are better ways to harvest water and also be waterwise.

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I do not support the dam!

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Rebekah Ray*

I support these aspects of the IWCM for the Rous Shire:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

The whole concept of massive dams is archaic and outdated. Let's focus on empowering every home in the Shire to harvest their own water, using funding for the dam to fund the project. The biodiversity of the area scheduled to be flooded is a national treasure and should be protected.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Diana Hunter

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We and our planet and animals and other creatures
are in need to keep our rainforest.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Maxine Shea

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

to think more future plan maybe
another location might be better

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Tracey Jousfra

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That we should not destroy anymore wilderness & wildlife, especially when there are more eco ways for having enough water.

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Lyrdhan O'Reilly*

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support diversity of water sources

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *ellie walsh*

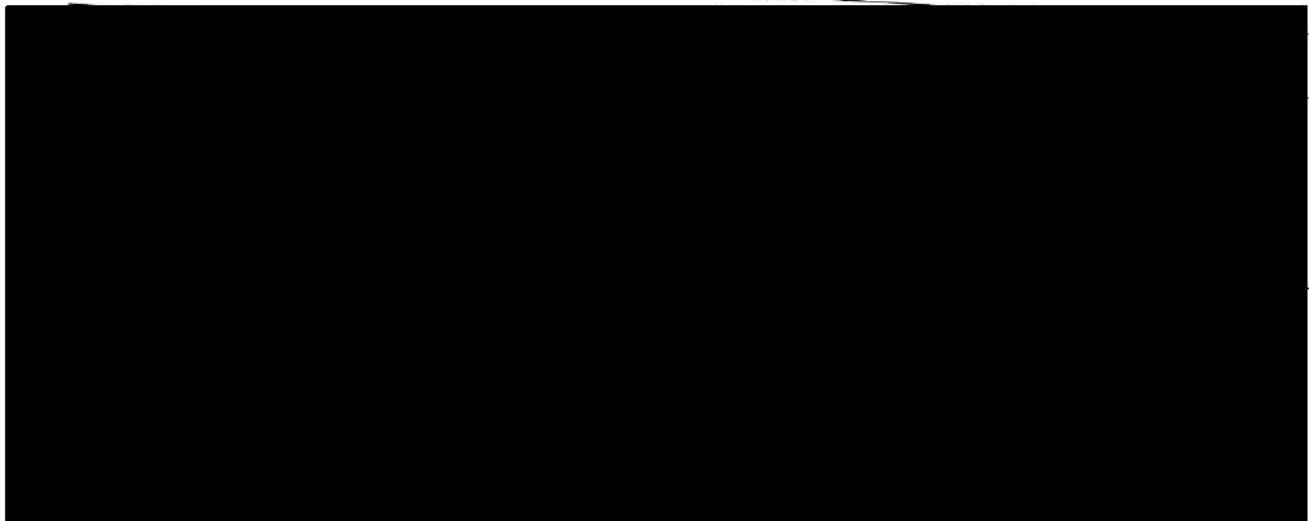

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support diversity of water sources

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Susan Fell

- ...the given in the IWCM:
- Water loss management focused on Rous assets
 - Section 15.4.2, development and implementation of a direct potable reuse scheme
 - Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
 - Drought management planning
 - Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
 - Sustainably powered temporary desalination plants on the coast
 - Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- Zero Emissions must be priority
- Climate change must be halted
- Environmental awareness must be prioritised in every government & public action
- this proposed dam will destroy habitat of animals, insects, birds, reptiles, fungi, plants - this must be halted

I want to be more actively involved

...the campaign with updates from Water Northern Rivers
