

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: FABIAN VACA

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

ABORIGINAL RIGHTS, BIODIVERSITY AND LOCAL
SOCIAL REPERCUSSIONS SHOULD BE TAKEN MORE
IN CONSIDERATION WHEN MAKING DECISIONS
THAT COULD NOT BE TAKEN BACK. LOCALS
SHOULD HAVE A GREATER VOICE THAN THE
CURRENT ONE.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Olivia Bouchier

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

• The importance of preserving indigenous heritage sites
ecological → environment protection

Rivers

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Laura Targett*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*I support the protection of
significant Aboriginal sites!*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Anna Birch

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Individuals should be supported to install
water tanks - in every home

Aboriginal heritage should be recognised &
protected

Ecosystems should not be disturbed.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Steve Berry

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

As a community, we have many options to reduce our use of water stored in the current system. We can add to ~~our~~ resources with support of tanks and better management of the resource. This should be the primary focus before taking such radical and unnecessary steps as building new dams, especially when they will have such a huge impact on environmental and cultural values.

--

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Taran Heffernan*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*Sacrificing rainforest & Biodiversity
is not a solution.*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Brendan Trant*

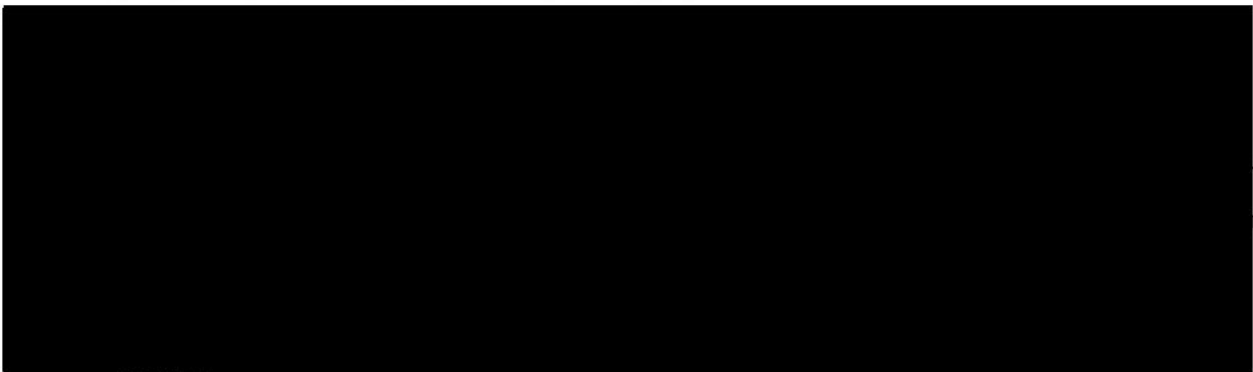

I **support** these aspects of the IWCM for the reasons given in the IWCM,

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*There are more positive ways to overcome this issue
Without harming the environment*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *WAYNE SMITH*

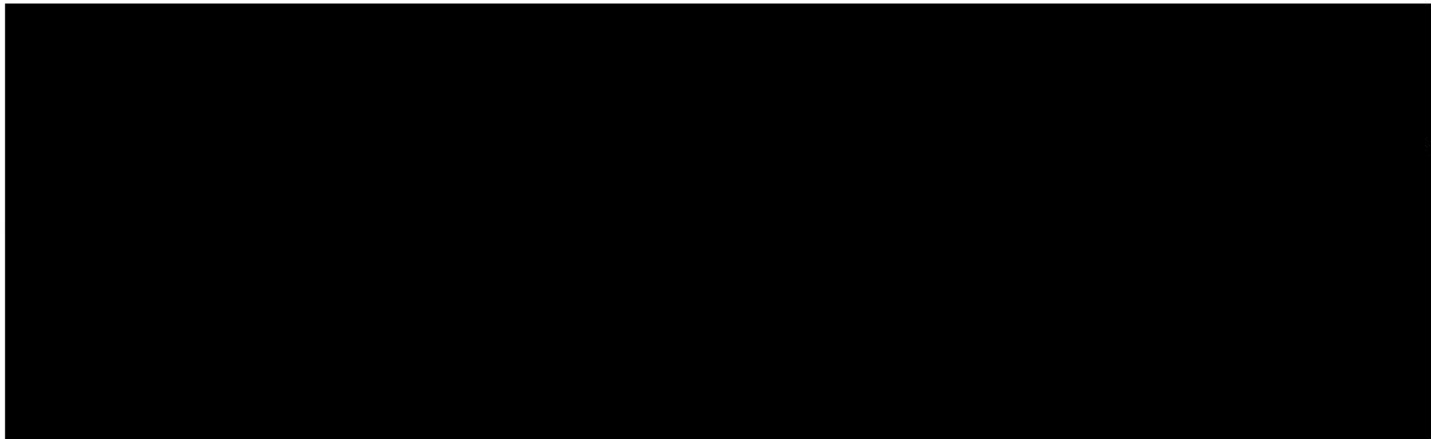

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

THERE MANY OTHER OPTIONS TO THE PROPOSED DAM.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Saint Bianca

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jacinta McEwen

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

to please be smart and no Dam

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Margaret Santore

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

Lisa Regler

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

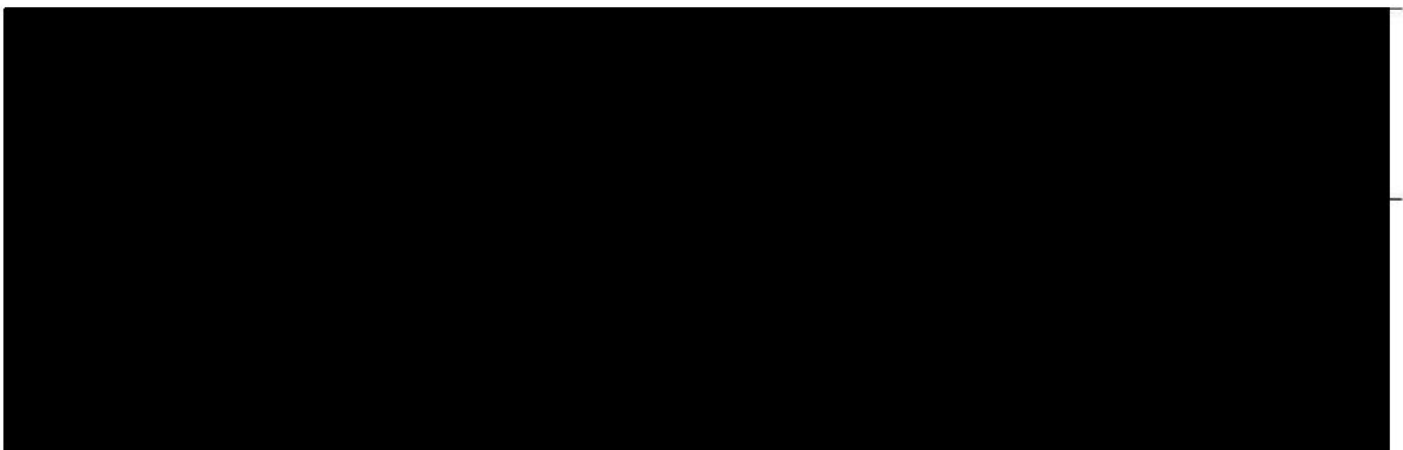

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This beautiful, precious land needs to
be protected not destroyed!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Fulvia Leving*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

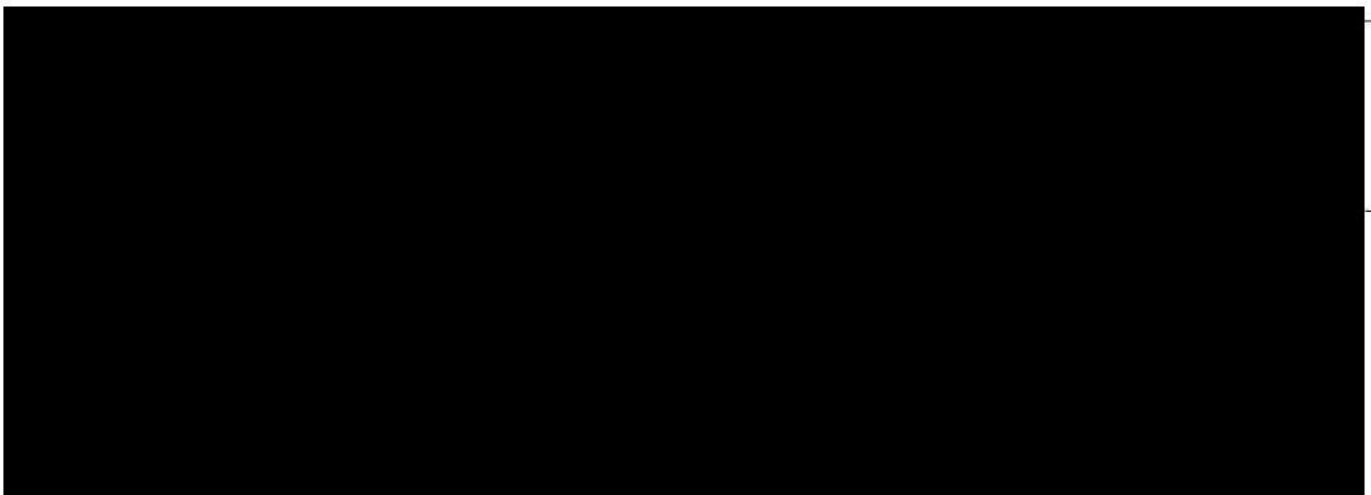

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support the Revised Water Future Project 2060 and the decision to remove the Dunoon Dam from further consideration.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: IRENE S. PEDRINI

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Resilience systems have diverse options.
Respect the aboriginal custodians and
their direction.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Turkyr Dann

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Flooding such a beautiful land would be
horrific and we should cherish our remaining
bush

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Georgia Bunel

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

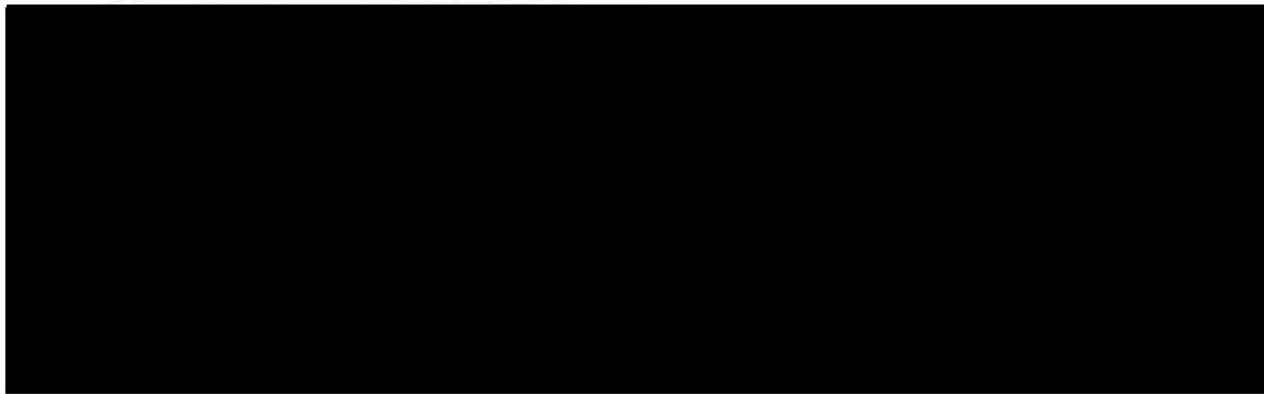

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that I'm absolutely not okay with the unregulated ecological destruction and extinction of native animals in crisis - what should be heritage and protected areas.

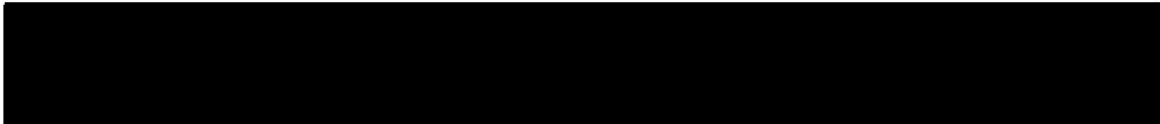

Submission

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- ① THE CHANNON GORGE CONTAINS IRREPLACEABLE RAINFOREST,
- THE VAST MAJORITY OF SIMILAR RAINFOREST HAS BEEN LOST
IN THE NORTHERN RIVERS SINCE WHITE SETTLEMENT
& PROPOSED BIOBANKING IS A SCIENTIFICALLY FRAUDULENT SOLUTION
- ② THE CHANNON GORGE CONTAINS IMPORTANT SITES FOR
THEIR FIRST NATION CUSTODIANS WHICH SHOULD BE RESPECTED
& PROTECTED.

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Taj Sol

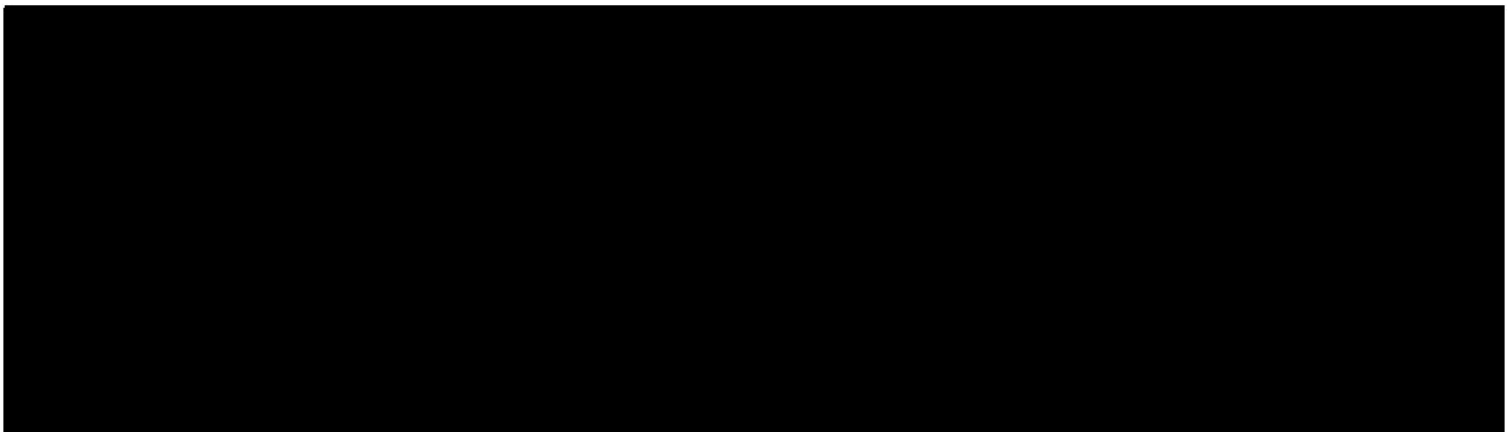

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I oppose the dam on affects the dam
would have on natural resources

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

Marcello R. Serrini

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Given the uncertainties of Climate Change, until appropriate - long term - modelling can be carried out, it would be unwise to undertake large scale projects that may end up being of no use. For the short term "self-sufficiency" of dwellings by means of tanks is best.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Margaret Serini

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- * CSIRO predicts April-Nov rainfall to decline in SE Australia. How do you fill a second dam if there are problems filling the first one?
- * To protect ourselves & the future we need to focus on water efficiency, NOW. This is the only thing to support water security. Will also supply local jobs.
- * We already drink recycled water without the proposed advanced purification scheme to be set in place.
- * It would be downright irresponsible to destroy the precious rainforest. We need to protect what we have & ensure survival of animal species who live there.
- * We need to show respect for the local indigenous community which has sacred sites in the area.

Submission

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I am opposed to the creation of a dam that will
destroy the rainforest, its fauna & flora.
Other solutions are available!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Kelly Michalak

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

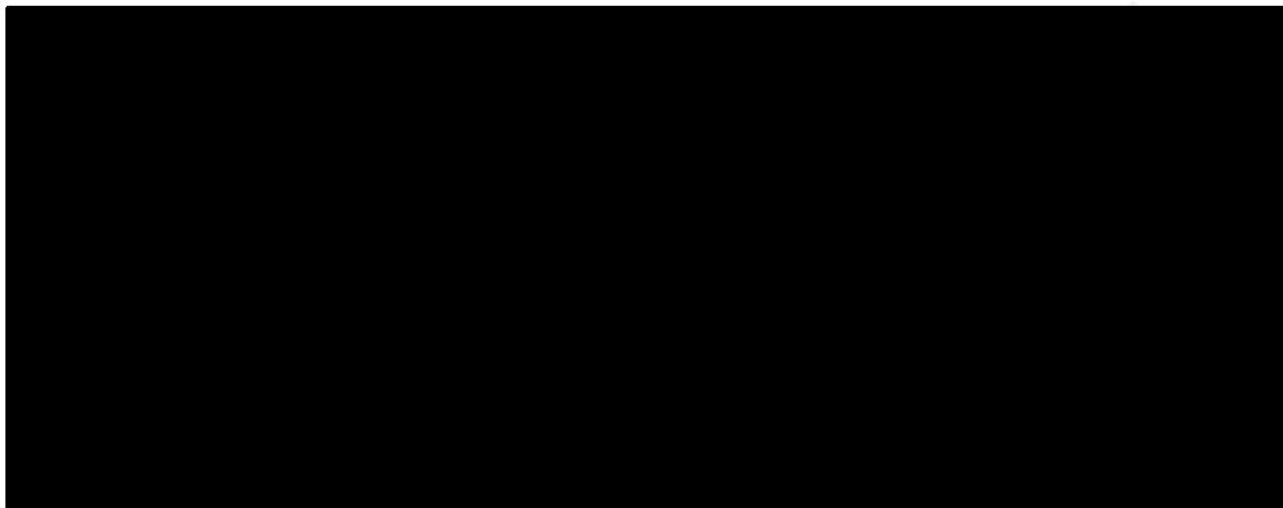

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Let Nature be. ♡

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Lealah Shostak-Heiber*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

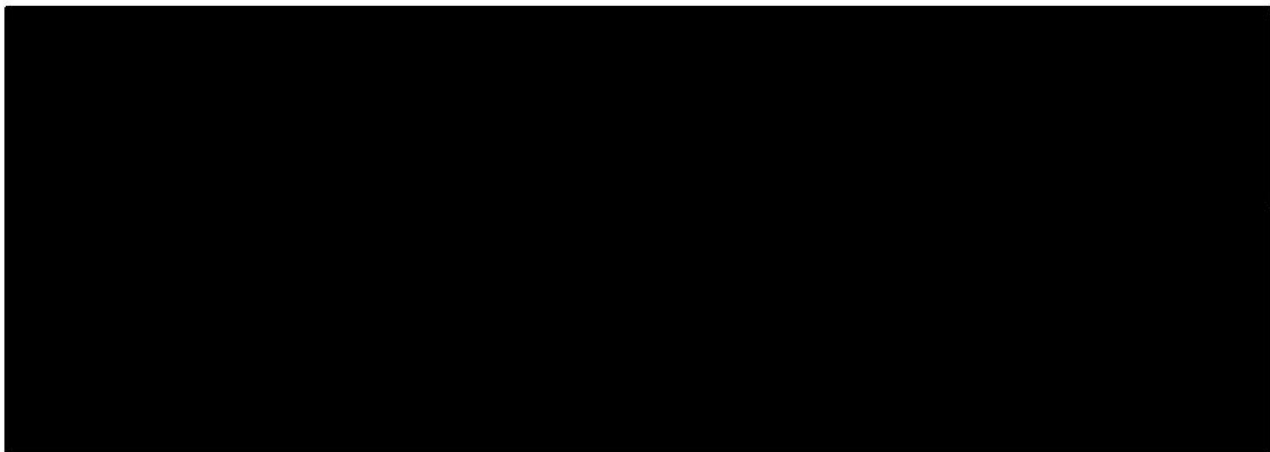

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That there are more sustainable and effective water management options than dams.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Hannah Sherwood

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that we as a society learn more about how to store, collect +
manage water better + more efficiently that there is no need to
build Dunoon Dam and pillage nature in such a way.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Sylvie Millard

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We will directly resist the dam

like we directly resisted CS6

if the Dam is part of the strategy.

Dams destroy ecological & cultural heritage
at a time when we need ecological
& cultural stability.

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: MICHAEL DWYER

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I am very opposed to a new dam + its destruction of more endangered environment in our area.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jo Wieheke

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I think this dam is unnecessary -
will destroy precious rain forest. Alternatives
should be considered as in the
Future Water Project.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Lisa Dillon*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that we should be finding other alternatives to a dam - esp rainwater tanks for all houses that are not in urban (city) areas.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: EVAN STRONG

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I Don't think we need a new dam, there are
other Alternatives without creating a new dam,
eg Water tanks for houses in town.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Charles Lynch

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Water / Dam is too expensive for
the ROI.

Environment needs to be protected under
your subboundary for all residents.

Submission

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: CLAUDIA P. CALIARI

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- LOOK FURTHER OPTIONS
- IMPROVE WATER EFFICIENCY
- " THE WATER SAVING CAMPAIGN INCLUDING (FOCUSING IN SCHOOLS TOO)

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Rochelle Meredith

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That there are other more sensible & realistic, safer more environmentally friendly options for harvesting rain water - rain water Koala tanks on all houses!!!

Protection of threatened Koala habitat - these population of koalas are disease free & genetically diverse. Protect them, protect our children's

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Robyn Sparks

Address: [REDACTED]

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage not sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

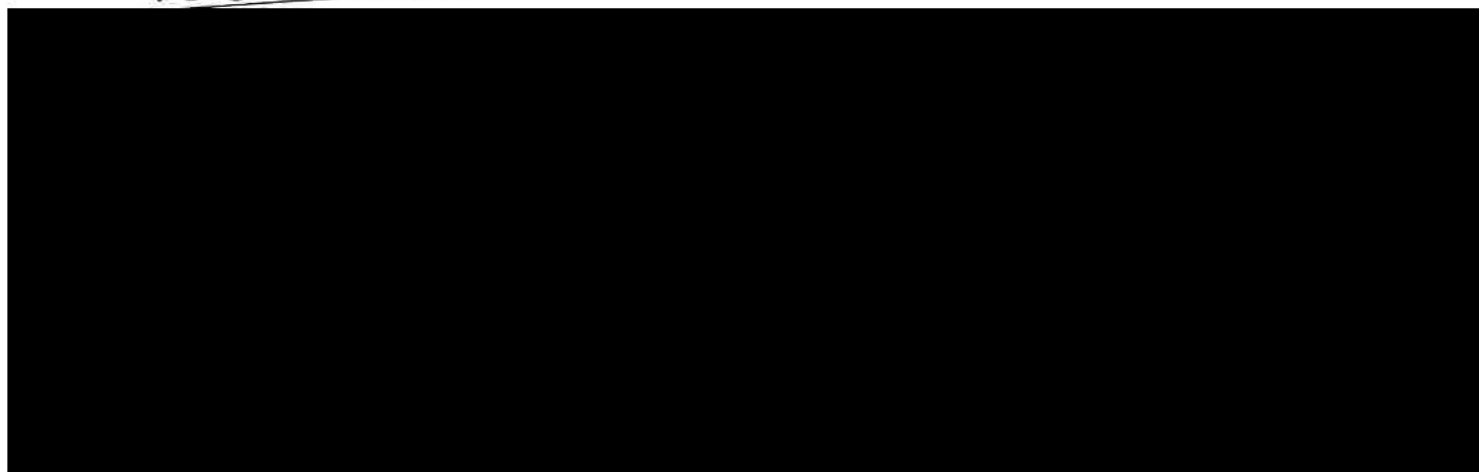

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

"Re-use" water to flush the toilet

"Re-use" water to water the garden

"Re-use" water at car washes.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

Petra Sorrellberg

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support the future water project

Use money for environmental friendly

water plans with less impact on

nature

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: PHIL STEELES

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

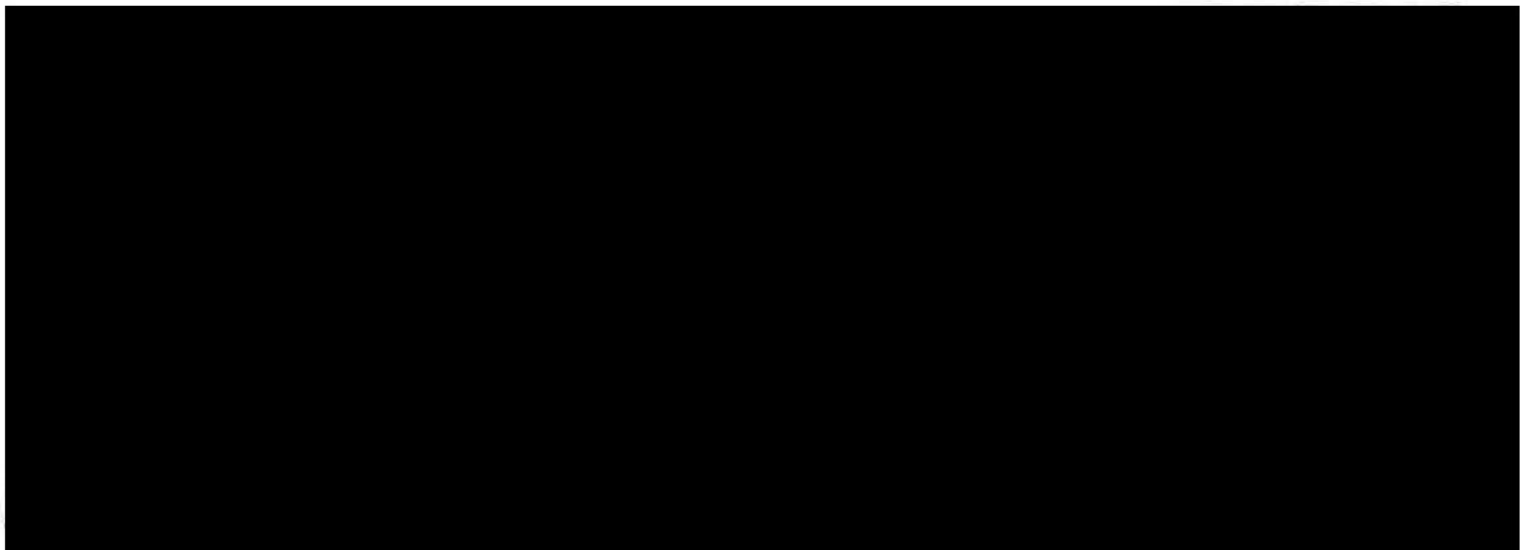

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Marzanne Couws*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That there are sustainable options that exist & that the antiquated notion of building dams does NOT embrace sustainable water catchment opportunities; such as improved infrastructure, recycling & allocation of resources & desalination. We have to think before we blindly act - the future depends on it.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Daniel Lloyd

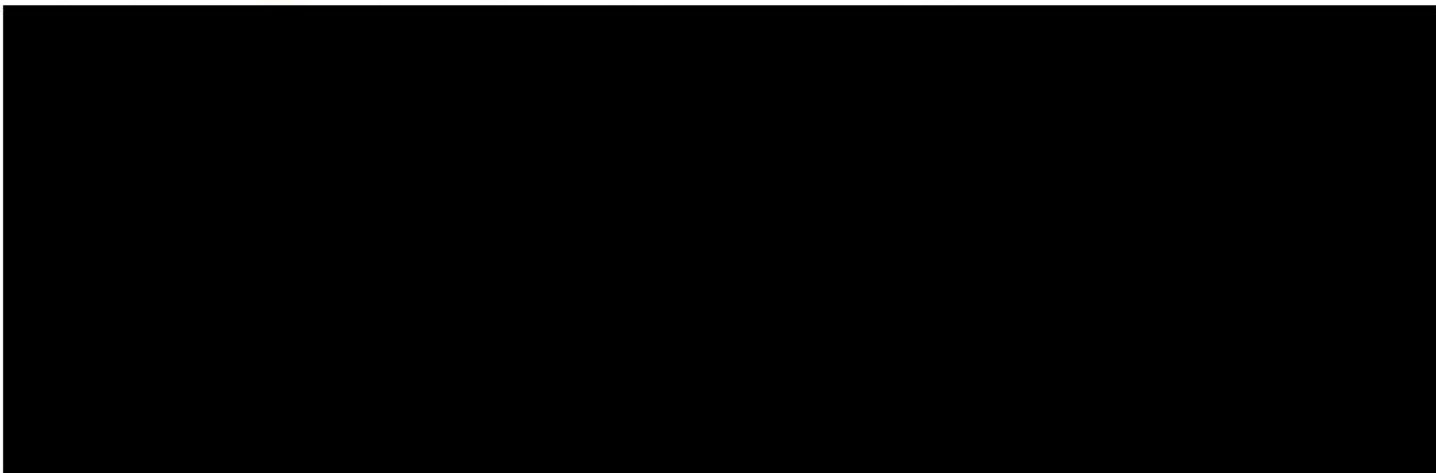

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

More sustainable options are available.
We can never get our ecosystems
back.
Please preserve them at all costs

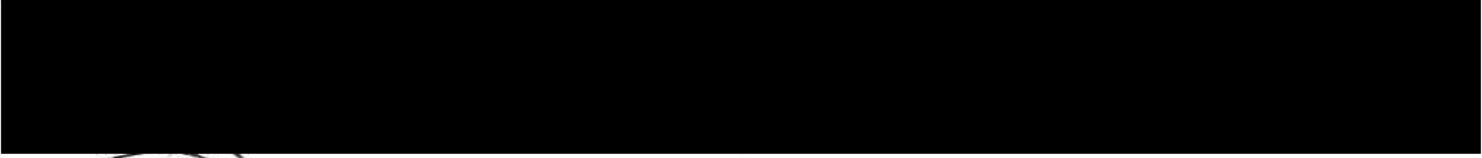

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Laura Capne*

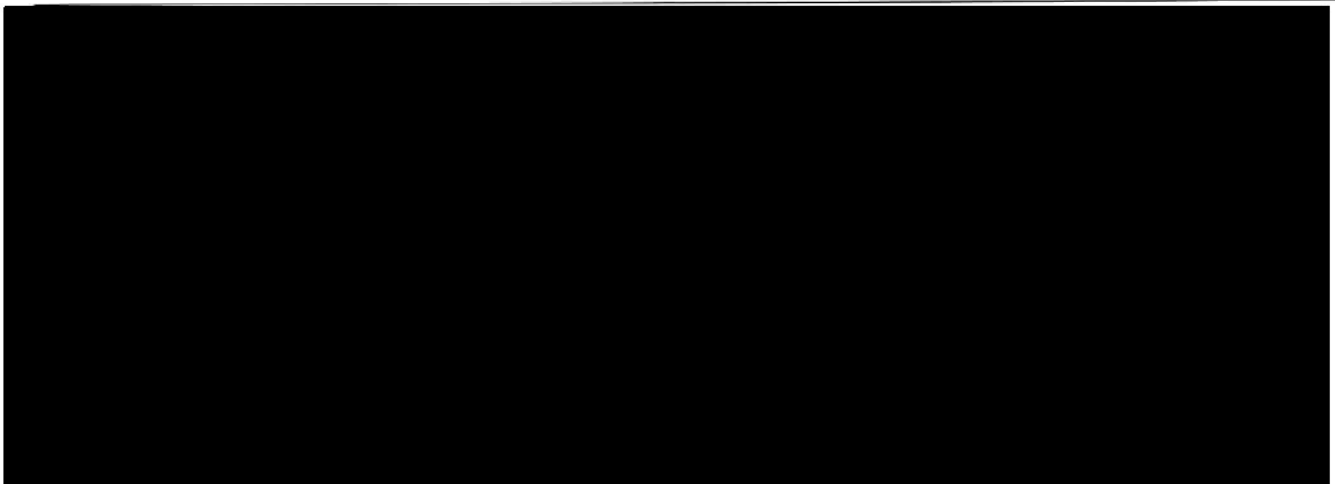

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Helen Wright

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That we do need another dam, we already have Rocky Creek dam. We have a responsibility to protect our native wildlife & areas of nature

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Lois Randall*

Head

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*It is important to our community to protect
our precious natural heritage that would
be destroyed by the dam.*

ers

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Gwen Evans*

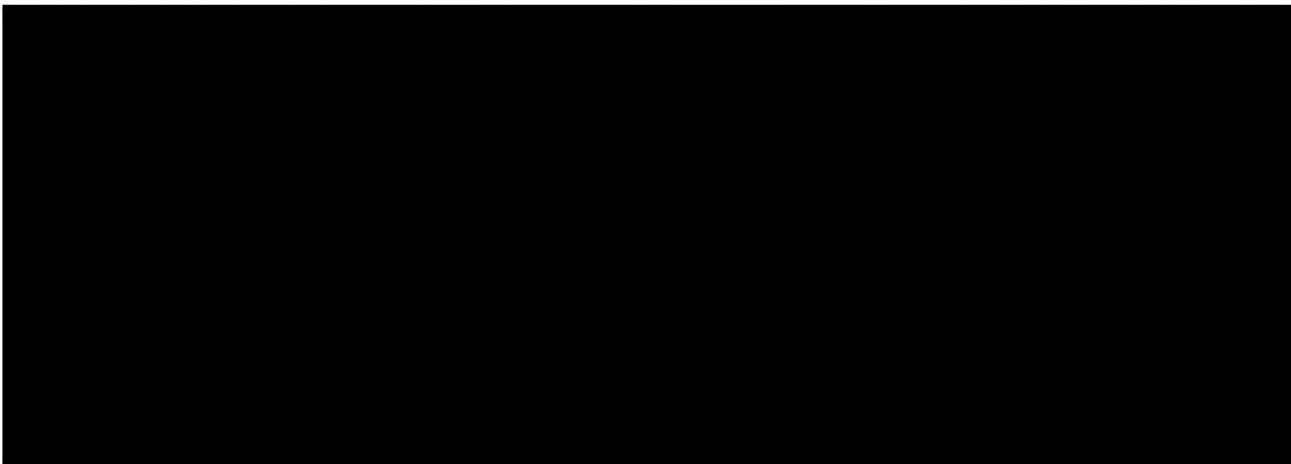

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

BRIAN TRAEJEM

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I DONT WANT THE DAM
BECAUSE EVIDENT COLATERAL
EFFECTS

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Teri Atkinson

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

There are lots of different alternatives that can be used. I don't believe destroying 253 hectares with 62 hectares of that being big scrub rainforest which needs to be preserved! Please stop this destruction from going ahead!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Heather Jockel

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We regularly travel in the
hinterland ^(when we visit the area) and the rainforest
is very special and must be
protected. So much clearing has
~~always~~ already been done
NO MORE

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

Frank J. [unclear]

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*That as a tourist, I value
the natural bush environment &
appreciate the rain forest in
the area.*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Kristina Sundstrom

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That I do not support this new Dam

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Angelina Christie*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

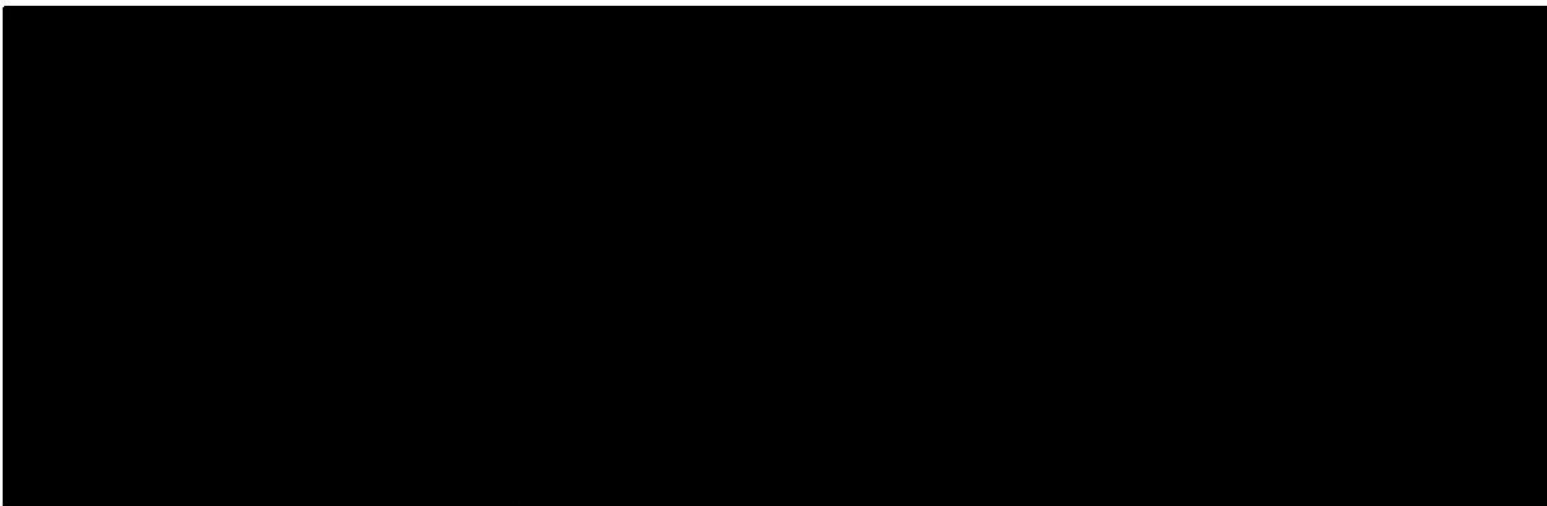

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*There is much more sensible
solutions to water security*

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Rachel Morris*

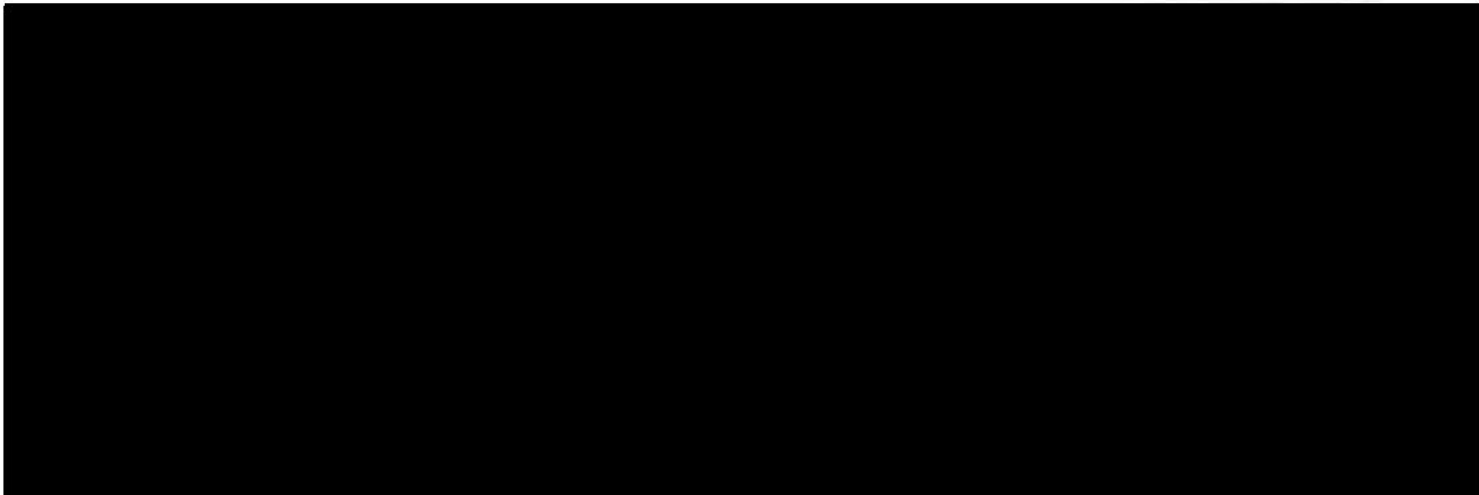

I support these aspects of the IWCM for the reasons given in the IWCM.

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This is a damaging move for the local environment & I don't support it.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Beaver Forward*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

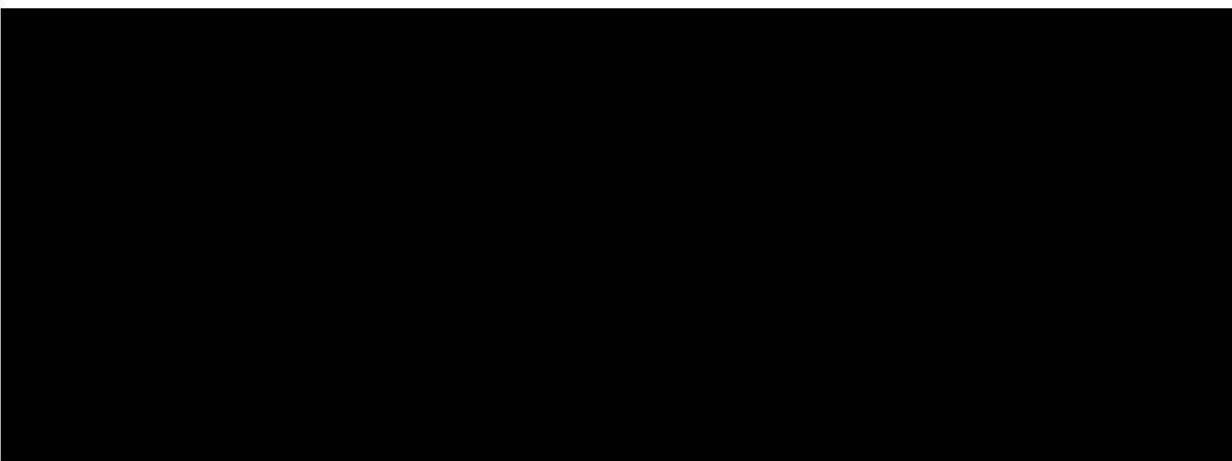

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*the relief to the community was
overwhelming when we were told
the dam was not going ahead.
To think the fight to save this area
is on again is devastating. The many
alternatives are there! For God sake!!*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Nathan Burton*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

With the amount of Rainfall we get in the area, smart water use and additional water tanks is much more sustainable than destroying irreplaceable rain forest/habitat.

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

WE WILL FIGHT.
